Comments	<input type="text" value="Will have a detrimental effect on travel to and from work on match days and any other event days . Parking restrictions will be enforced and residents will all of a sudden need parking permits to park outside thier own houses . The A40 ,A34 , A4260 , Oxford Road will become gridlocked. Public transport will not be used , look at the Kassam miles of cars parked on verges side roads . People will be intimidated so won't use that area including any trains or public transport. Any promises will eventually lapse .
4 or 5 people in a car will always be cheaper than any public transport . A number of Kidlington residents have already stated they will start using parking apps to rent out driveways once everyone get wind of it you'll not stop the car .. Will just be utter chaos . Although digital images look good it'll soon become an ugly blot on what should be green belt land . The green belt is there for a reason to stop urban sprawl there will be no visible or recognisable separation between Oxford city and Cherwell.
The decision to for this location is sheer desperation without due consideration for any other location..
The majority of Kidlington residents will oppose this location as just not suitable. Kidlington will gain nothing apart from grief !"/>
