Comments	<input type="text" value="As a local resident, I would like to express my strong support for this project. I am an Oxford United supporter and my family and I attend games regularly.

As well as a much needed new home for the football club, this is undoubtedly a spectacular opportunity for the wider community that would be madness to let slip. We are in desperate need of infrastructure and a development of this magnitude and quality would only enhance the lives of people locally.
This is a 100m plus build and there is evidence that developments like this one actually enhance the value of the surrounding area.
Please help get this through planning and on to the build phase asap. It will be a truly monumental achievement for the whole county and it's people to have this as not just a stadium for its football team but a hub of activity to enhance lives and the local economy.
Best wishes,
G. Morris."/>
