Comments	<input type="text" value="I have lived in Kidlington for over 20 years now. I am oxford supporter and have listened to both arguments. The location is the best available site for the stadium with excellent transport links. 99% of stadiums are in urban environments. I've been to many stadiums around the UK and this one would be one of the best for ease of access and transport links.

Kidlington needs a 21st century injection and if OUFC commit to upgrading statfield brake then it's a huge bonus to the dilapidated site."/>
