Comments	<input type="text" value="neighbour"/> <p>This proposal offers a first class home for an Oxfordshire institution, and also provides additional recreational space and facilities for the people of the local area. It also provides jobs, and opens up a new piece of otherwise undesirable (given its position) development land.</p> <p>The plans appear to very carefully consider and mitigate environmental impact and the unique site, being so close to Oxford Parkway rail station, offers the possibility for literally hundreds of thousands of journeys, which would otherwise have been made by car, to be made by public transport which will take a huge amount of traffic off the road over the coming years.</p>
