Comments	<input type="text" value="This is a once in a lifetime chance to get a world class sporting venue that will be an asset to the whole community.
The investment opportunity is free to the local population.
This stadium will be a great example of environmentally sustainable construction and operation.
It will allow the women's team to play at home, something the current stadium forbids.
It has the most favourable transport links and I fully intend to attend on public transport.
I appreciate local opponents will highlight the disruption on match days, but this is 23 times a year, meaning 342 days are free of whatever they are against.
The construction will bring jobs and prosperity to the area. The ongoing operations will provide a large number of new jobs in various occupations.
I would be proud if this was being built near me, and I'm looking forward to the benefit this will bring to the mental health of all those who love the mental relief sports can bring whether that's playing or spectating.
Failure to move the football club to this site will almost certainly see the closure of our beloved club, the only professional team in the county. Please don't be the ones who destroy our historic club."/>
