Comments	<input type="text" value="The new stadium represents a once in a lifetime opportunity for Oxfordshire to have a world class stadium. The club are employing the best architects, designers and professional advisors to ensure that this build complies with the regulations and meets sustainability and environmental requirements. It will be a development to be proud of and a facility that will benefit people of Oxfordshire in many ways beyond just simply football matches. There are many examples of football clubs growing their fan base by building new stadia. Brighton, Brentford, AFC Wimbledon, Cardiff and Swansea have all improved their status by offering facilities that are in tune with modern day expectations. Oxford Utd (formerly Headington Utd) has been in existence for around 130 years. This new stadium provides the opportunity for the club to plan for further longevity. It will offer jobs for local people and increase trade for local businesses. We must not let this possibility slip away."/>
