Comments	<input type="text" value="The design team have done a great job in maximising the opportunity at the 'triangle' with the limited space. It will look fantastic and something for the county to be proud of as the stadium arena for our professional soccer team along with other events it can host for the community

It's a shame that short sightedness has curtailed the club's ambition at the starfield brake site as that opened up even more superb facilities for the people of Oxon to enjoy such as the potential for a dedicated concert hall and ice rink located on site away from the busy city centre but OUFC have taken on the challenge to offer us something still spectacular within a tighter space so all credit for them and their environmental plans.

I fully support the building of a new stadium for the team. It can only be good for Kidlington and the county, in so many ways.
Please approve the club's plans."/>
