| <b>Type of Comment</b>    | <input type="text" value="Objection"/>  |
| <b>Type</b>               | <input type="text" value="neighbour"/>  |
| <b>Comments</b>           | <input type="text" value="The plans would severely negatively impact locals due to increased traffic, and overcrowding on match days. The plans to close the road (now called diversions but basically meaning the road will be closed) will cause huge disruption especially for those of us who actually work on Saturday and have to get back and forth from Oxford by bus. It will significant times to commutes, on an already overstretched and unreliable bus route (buses are already often delayed due to traffic so this will just be even worse).&lt;br/&gt;The plan is anyway a bad idea for nature. We hear a lot about how eco friendly the council plans to be but this just highlights that the real priority is always money, and ecological concerns are never prioritised.&lt;br/&gt;Not only will habitat be lost, but pollution and noise pollution will increase due to the additional traffic. The air quality is already poor and know to cause lung problems such as asthma (which I also developed only after moving to this area) so additional pollution will have negative impacts for the health of those is us living locally.&lt;br/&gt;The extra noise pollution, delays to journeys due to road closure/diversions, and the crowds on match days will also negatively impact mental health locally due to added stress.&lt;br/&gt;Also, Oxford United initially said they needed to build a new stadium because they had been made homeless, however this had recently turned out not to be the case so it seems like a bad and wastefull decision to build a new stadium when there is already one in existence that could be used."/> |
