Comments	<input type="text" value="I am supportive of the stadium application for the following reasons.

It is vitally to keep the professional stadium and sports club, I do attend matches both weekends and during the week.

The stadium location and its next to the train station will enable me to nip onto the train from long handborough and attend matches rather than driven as I do know.

Oxfordshire needs this stadium and the funding allows more jobs, more locally environmental reasons and accessibility, this construction proposed presents this.

The local people say the stadium is a contaminated wasteland, the proposal is to make great use of this land in a positive way and ensure this will be used for the benefit of wildlife and people.

Again I support this application."/>
