<b>Comments</b>	<input type="text" value="The stadium will help keep Oxford United alive as a club as it cannot continue where it is. The new stadium won't only benefit Oxford United but will also support the local community, creating jobs and opportunities for the people of Oxford and its eco friendly supporting the councils ambitions to be zero emissions. The land currently has no open space to the public and the clubs plans are supporting not just the football fan but the local residents of Kidlington by having a safe space to go with a flower garden and public space to sit and take in the surrounding areas. In contrast the stadium will be used 23 times a year excluding cup and friendly games yet the rest of the space the club is opening up for everyone is open 365 days a year. Its just a no win and great opportunity for Oxford as a whole."/>
