Comments	<input type="text" value="As an Oxford fan I would obviously be over the moon to be able to walk to matches and not have to be driven or get two buses like we have to currently. As a lifelong Kidlington resident the prospects that having the stadium here bring are also more exciting than just football. The job opportunities and new life this could breathe into the village as a young person is also very appealing. Kidlington has very little in terms of 'things to do' and not only would this provide something but also make it a more attractive area for other businesses to want to invest in. Even my friends that are not football fans are very keen to seize this opportunity and have something that actually makes us want to stay in the village. Would be absolutely thrilled to see this actually happen for us"/>
