Comments	<input type="text" value="Firstly i am an Oxford United fan and have been since i was a child. Born in Abingdon, went to school in Abingdon. Moved to my current address late 80's due to my job. I fully support this application on the grounds that for me personally i will now be able to use public transport instead of relying on my car like i have to do at present. What Oxford United are proposing to achieve with this development needs to be supported. Its not only going to be a world class development, which is something Oxfordshire doesn't have at present, its going to be available to everyone the whole community. The green credentials this development brings is something that should be supported by everyone. Oxfordshire has the chance to show the rest of the country and beyond just what can be done with a lot of planning and thought and be the envy of the sporting world. The avenues this development will open for the residents of Kidlington and future generations of residents is massive. It simply has to happen.
I am asking that this gets the full support that it deserves.
Thankyou for reading my views."/>
