Comments	<input type="text" value="I am wholeheartedly supporting the planning application by Oxford United for their new stadium. The plans look as though they'll improve this unused piece of land (there has been nothing on this land for as far back as I can remember) and to have this brand-new sporting facility will be great. It will bring jobs for local people, make watching football accessible by being built with great transport networks around (which the current stadium doesn't have) and will be a boost for local sport, in particular youth sport, in the Kidlington area."/>
