<b>Comments</b>	<input type="text" value="Whether you like football or not Oxford United are a massive part of the heritage and history of this famous City. The clubs owners are trying to make the club sustainable for the long term by providing them with a state of the art (four sided) stadium where the income from all the different activities carried out during the week and on match days is supporting the club. The present ground and arrangement with the landlord can not continue as the financial loss is not sustainable. You can understand the concerns of Kidlington residents but rather than a sports facility, restaurant and employment opportunities, would they prefer another private housing estate which will bring more traffic during the week and more pressure on local services?&lt;br/&gt;The work the club has put into this planning is extremely comprehensive and commendable and it should be approved for all of Oxford and the County."/>
