Comments	<input type="text" value="Oxford United needs a new ground. As a visiting fan from an away team nearby, the current ground offers very poor access via public transport, and congested access and egress, with cars parked on the side of the road.
This new proposal is very well located for us away fans to visit without driving, being close to bus routes and main train lines, reducing the impact on Oxford on match days as a result. The sustainability of the energy source sounds excellent as well.
Safe standing is also an excellent proposal, as it will be much safer and more useable than all-seater provisions.

Oxford is a big city, and benefits from having a well performing football club, and this proposal will help that to happen.
I strongly support the application."/>
