Address	<input type="text" value="99 Andersey way ,Abingdon ,OX14 5NW"/>
Type of Comment	<input type="text" value="Support"/>
Type	<input type="text" value="neighbour"/>
Comments	<p>This stadium is vital to secure the future of Oxford United football club who without them in business will affect thousands of residents of Oxfordshire. The club supports lots of charities, youth groups and schools. Not to mention the amount of money generated into the local economy which will ramp up even more in the new stadium.</p> <p>The triangle is a perfect location for the stadium in the fact it's a disused former Motorcross track and will have minimal effect on the loss of green belt unlike the 1000's of new build homes that keep being approved.</p> <p>This will be a community stadium that is open for all to use (something which the current Kassam stadium isn't) it is beautifully designed to maximise the space available and with minimal effect on the landscape.</p> <p>Being across from Oxford parkway train station will not only generate more income for the public transport sector it will improve the carbon footprint of us fans, currently I drive from Abingdon every game but with the new stadium I would get the train from Radley , change at Oxford city centre station and board a train to the parkway. It is also worth mentioning that the new stadium is on a main bus route from the city centre or Bicester. The triangle is a perfect location from travelling fans from all directions.</p> <p>I fully support the stadium and me and my two sons will be devastated if the club were to fold. Thankyou for your time.</p>
