Comments	<input type="text" value="This site is totally unsuitable for the erection of a huge stadium. The road infrastructure is also totally unsuitable. It will not be able to cope with the influx of vehicles that the stadium will draw along with the number of people. The site is too small in my opinion and Kidlington does not need this type of building. If it is built it will be taking yet more green spaces from the area. Oxford stadium should be built in Oxford and not in a different council district. They don't need to move either just renegotiate their lease. They have a perfectly good stadium in cowley. With all the housing planning to be built around Kidlington and Yarnton at the expense of loss of the green belt we don't need this as well. Oxford should be using the brown field sites they have rather than encroaching on our green spaces."/>
