Comments	<input type="text" value="This new carbon neutral stadium will help Oxfordshire be seen as an innovative and forward thinking county. It will provide employment for locals and provide the club with a long awaited stadium they can call it's own.

There is so much benefit with this location, with key public transport routes already in place. This will help the county push its green mission whilst delivering an exciting new facility nearby a town which is in much need of additional facilities to make it more attractive. Please support the plans."/>
