Comments	<input type="text" value="A perfect location easily accessible by all methods but especially by train meaning we can leave the car at home which we can't do at OUFC's current stadium.

It'll make better use of this land which currently generates very little income for the Oxfordshire whereas the stadium will be a major contributor to the local economy.

Football games only take place over a few hours every other week and take place during weekends and occasional evenings so won't impact commuters or the school run and any inconveniences caused will be for a very short period of time. Dates and times of games are notified at the start of the season so there is plenty of notice given to residents well in advance. Perhaps fixture lists could be posted through doors of everyone with an OX5 posted at the start of a season?

The application clearly shows this is the only suitable site for the stadium in the county and the circumstances OUFC find themselves in with the lease at the current stadium means the special circumstances needed for green belt development are clearly met.

Please approve the application ASAP to stop OUFC being made homeless and help secure the future of OUFC which means so much to many in the county including my family."/>
