Comments	<input type="text" value="As a supporter of more than 55 years. The application from Oxford United's move to the Triangle site, is in my opinion the most important event in that time in the clubs history the clubs history. The club may or may not exist if the application fails, but the opportunity of a world class stadium complex should not be refused. To have a sustainable, fully electric stadium with commuity facilities that will benefit Kidlington as well as the whole of the county. The location, next to Oxford Parkway, means that many fans both home and away will take advantage of ditching the car and using public transport. The shame for the people of kIdlington is that Stratfield Brake is not included in the project. I remember my son playing fr a team a few years ago and the sports facilites there were poor then, a missed opportunity for KPC to release a large chunk of their budget for the good of the people of KIdlington. Please for the sake of the children of Oxfordshire, support the application."/>
