Comments	<input type="text" value="As an overseas based supporter, my annual visits to the UK currently involve staying outside the county, eating outside the county and driving to games adding to traffic congestion, pollution, and spending money outside the county. This will now give me the opportunity to stay and spend my money within Oxfordshire, supporting local jobs, and catch public transport / potentially walk to the games.
The 100million + investment in this facility in Oxfordshire, at little cost to taxpayers, is a once in a lifetime opportunity, and for the sake of the local community, and the future of the football club itself, there is no doubt that the green light should be given to this world class facility."/>
