Address	<input type="text" value="13 Knapp Close,Abingdon,Ox14 1sl,"/>
Type of Comment	<input type="text" value="Support"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="Great design that blends into the landscape but offers a real identity to the area. The community benefits both locally and across the county (community activities, usable green space, education, The economic benefits for Kidlington, both on match days for local businesses and throughout the year. The new stadium would take us from an environmentally unsustainable stadium that is car-dependent to an all electric eco-friendly built and run stadium at the heart of public transport hub. Traffic across the county would be improved.significantly reducing car usage to a planned 10/15%. A community hub to inspire young people, lead the way in health promotion, provide local jobs and investment. Improved bio diversity, more trees planted and access to a previously inaccessible scrubland. Improved drainage and flood protection. I believe the application is fully consistent with government and local policy on sustainable transport, build and operation."/>
