Comments I would like to state I fully support the application for the new stadium at the triangle Kidlington.
As a previous resident of Kidlington (Chamberlain place) I moved out almost 20 years ago, part of that decision making process was around available facilities for my two young children.
Now we are 20 years later and grandchildren are a consideration I look at Kidlington again but i see there is still a lack of facilities and what facilities there are are tired and under invested in. and we feel the Kidlington area although located well for many things is a non starter for young families.
This new stadium complex would help address the balance and provide something the whole county both needs and would be proud of.
Oxfordshire as a whole is frankly falling behind and clearly cannot fund such things for itself so this is the ideal opportunity to bring the county into the 21st century and support the 'wider' community as opposed to pander to the select wealthy few who have driven local people away.
