Comments	<input type="text" value="I have been a resident in Oxfordshire for many years and also have property in Kidlington. My parents lived in Kidlington and I have a number I of members of extended family who live there also.

I am 100% in support of this proposal.

Kidlington has nothing to do and no incentive for people to stay or travel there. This would be a huge boost to the local economy, local families and in particular the youngsters in the area given the added investment in alternate sports facilities committed.

At a time of a struggling economy it would be disgraceful if you as a group stand in the way of such a huge investment, at zero cost to local taxpayers with an annual benefit of millions to the local economy.

This plan does not only have huge benefits for the local economy but also secures the long term future of a high profile local sports club with whom thousands of local people have an affinity.

I would ask that the planning committee apply some vision....find reasons for this to happen, not reasons or excuses for it not too happen. If rejected you have seriously let down the local community."/>
