Comments	<input type="text" value="I am writing to support the plans for a new stadium on the triangle site in Kidlington.

The site offers excellent transport links, will reduce supporter reliance on travel by car, and is ideally located to serve supporters across Oxfordshire.

The new stadium is essential to the future of the football club, its ability to control its own destiny, and to continue to provide and expand its community activities.

I am also enthusiastic about the prospect of OUFC being able to act as 'one club' and utilising a first class facility to provide a home for the men's teams, women's teams, youth teams, and other various community and disability teams. This is simply not possible in the current stadium which has significant usage restrictions.

I strongly believe that this opportunity will not present itself again in such an ideal location, and implore the decision makers to approve the application."/>
