Organisation Name	<input type="text" value=""/>
Name	<input type="text" value="Bob Hield"/>
Address	<input type="text" value="37 Annesley Road"/>
Type of Comment	<input type="text" value="Support"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="It is a well known fact that Oxfordshire's only professional football club urgently need a new 'home'. After a lengthy consultation period which has included not only fans of the club but all the population of Oxfordshire and listening carefully to the views of all, the architects have come up with a world class design that we should all be proud of, whether a supporter of the club or not.
I am not an expert of these things but I understand the environmentally friendly nature of the design is fantastic. Another impressive feature is it's location, being close to the rail network as well as safe cycle track if you choose to cycle. I live in South Oxford, and like many other supporters I will either travel by train or cycle to the stadium.
Another benefit as well as to the local economy is the fact that the stadium will be used by the local population and not just for match days. This is something we should embrace. So please don't delay and give you green light to this wonderful project."/>
