Comments	<input type="text" value="I fully support this application, as a resident of Oxfordshire and as an Oxford United supporter. This application is essentially about giving our professional football club a sustainable future. It is important to keep in mind all the valuable contributions the club makes to the wider community. I appreciate that there will be people in the close vicinity who will object, but the question is if not on this site where? I'm sure that those entrusted with this decision will not wish to bear the legacy of the death of this football club. On a personal note I am looking forward to being able to catch the S3 bus from Chipping Norton to the ground, assuming a stop will be added at the bottom of the triangle. I believe this site is an excellent location to enable increased usage of public transport."/>
