<b>Comments</b>	<input type="text" value="This development is almost THE most exciting think ever to come to Kidlington. I've lived here all my life and the only developments built in the last 20 years have been retirement homes! Clearly they are needed, but what about supporting our youth for a change. Surly a multi million pound development in the village would be truly inspiring for our younger generation and will provide all sorts of employment opportunities. It can also be something that we can be proud of to have on our doorsteps. It will also be great to have new venues to socialise at. Yes there will be more traffic, which will need to managed, as will parking in the village. But both issues are managed around the country at similar stadiums, so that's not a problem. I am truly excited to see it being built."/>
