<b>Comments</b>	<input type="text" value="This proposed development is a once in a lifetime opportunity for Oxford United and its supporters, but also for the people of Kidlington and the surrounding area, as well as the wider county. The benefits are multiple, from social and cultural, to economic and environmental - for the whole county and beyond. The environmental benefits alone are, in my view, enough to give this project the go-ahead, especially when compared with the current stadium. On a personal level, when I go to matches currently, I'm faced with a choice between perhaps 2 hours by public transport, or 30 minutes by car. At the new site, it would take me less than 1 hour by public transport, and I would very likely do that. The loss of a small parcel of publicly inaccessible green belt should not be a reason to block this proposal, when the alternative on offer is an improvement on what's currently there - please don't pass up this incredible opportunity."/>
