Comments	<input type="text" value="I am writing to express my strong support for the proposed new stadium for Oxford United on the site known as The Triangle. As a passionate football enthusiast, I believe this development is not only essential for the football club but also has broader implications for the local community and beyond.

Community Facilities: The facilities that will be made available to local residents are greatly needed. A new stadium can serve as a hub for community events, youth programs, and recreational activities beyond match days.

Addressing Concerns: Oxford United has diligently addressed concerns raised by the Oxfordshire County Council (OCC), particularly regarding sustainability and transport logistics. Their commitment to these aspects demonstrates responsible planning.

Vital for Survival: This planning application represents a pivotal moment for the football club's survival. Denying permission would jeopardize the very future of Oxfordshire's only professional sports team. As someone who values the mental health and well-being benefits of sports, I firmly believe that supporting this project is crucial.

In summary, approving the new stadium is not just about football; it's about investing in our community's vitality, well-being, and shared identity. I urge you to consider the long-term impact and support this transformative project."/>
