Comments	<input type="text" value="I am not a Kidlington resident. I am an OUFC supporter who travels some distance to see the team play. Currently I drive - I have little alternative, it would potentially take multiple hours to do it any other way. I am keen to reduce my carbon footprint, and the better transport links etc would reduce my need to drive - and that is true of many, many other supporters, both home and away. I also support the building of the stadium because (looking from the outside) Oxfordshire seems to have a pretty poor sports provision. A community stadium would surely be an absolute boon. I support the club because my grandfather played for Headington United (and for the cricket team) - and given that the club can NOT stay at the Kassam Stadium, I fear that the club cannot survive without this exciting new project. What a shame that would be for the county, the supporters and all those with a family history with the club. Thank you."/>
