Comments	<input type="text" value="I think this is a fantastic location for a new stadium. It is close to the A34 and the Oxford Ring Road for motor cars, which should allow for minimal traffic disruptions before and after games. However most importantly it is so close to the railway station and the major Oxford cycle routes, following the ring road. Motor traffic and pollution should be kept to a minimum.
I also believe the additional planned facilities would significantly benefit the county as a whole not just to the benefit of Oxford United Football Club but to the county as a whole."/>
