Address	<input type="text" value="8 Grove Road, Brentford, TW8 9NT"/>
Type of Comment	<input type="text" value="Support"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="Hi, I am London based Oxford United supporter - so very much in favour of this fantastic stadium because I will now at last be able to get to all home games via the train ... the current stadium is so inconvenient for public / train transport ... and so this is a brilliant opportunity to get less cars on the roads of Oxfordshire and at the same time build a world class stadium ... This move would take us from an environmentally unsustainable stadium that is car-dependent to an all electric eco-friendly built and run stadium, at the heart of public transport hub. The design is fantastic and blends so well in to the local surroundings. This stadium also builds a fantastic community hub that will inspire young people, lead the way in health promotion, provide local jobs and investment, and to provide world class facilities that reflect Oxfordshire's world renowned image and reputation for innovation. It seems that the application is fully consistent with government and local policy on sustainable transport, build and operation which is brilliant ... So what a fantastic opportunity for Oxfordshire! A Once in a generation chance to continue to put Oxford even more on the world map ..."/>
