Comments	<input type="text" value="As a resident of Kidlington i fully support the application for the new stadium. I believe it will benefit Kidlington and the whole of our county by creating jobs, community facilities as well as the best stadium this county has seen. I am especially excited that the stadium will be used by the ladies team which i believe will boost participation in sport in general which must be good for the health of our population. The club seemed to me to have answered all the questions put to them in their application around the stadium being net zero and their commitment to car free travel to the stadium is commendable. I believe they have addressed the issues around traffic and that the impact from the stadium will be far less than that of the increased housing in the area. Please pass this applicable, failure to do so could deprive our county of one the few high level sports teams we have. Thank you"/>
