Comments	<input type="text" value="This application is wholly unsuitable. It will completely destroy the strip of open land between Oxford and Kidlington which is essential to stop the relentless urban sprawl of Oxford northwards. As I live north of Oxford, I am also concerned that this development will exacerbate the current difficulties experienced trying to get to and from Park & Ride car parks and Oxford Parkway station. The existing football stadium in Blackbird Leys seems well situated and will be perfectly so when the planned light railway opens. There has been no explanation as to why the stadium has to move from there. The need for another bridge to allow match day pedestrian traffic access to/from the railway station without having to close Oxford Road/A4260 shows the madness of the plan. I urge you to resist."/>
