Comments	<input type="text" value="I have been attending OUFC games for over 50 years and in all that time have had to travel to the game by car. A move to this site will enable me to travel to games using public transport, primarily the soon to be available east/west rail link. Priceless.

The future of OUFC is of massive importance to me. The club has been a huge part of my life since the 1960s, my passion in life, giving me many friends and amazing memories.

I am excited by the environmental sustainability and ecofriendly nature of the whole project, this is forward thinking and a beacon for other developments nationwide.

Although I am not a resident of the immediate area, it seems to me that this project will offer considerable benefits to Kidlington both economically and more importantly communitywise at the stadium and the development of Stratford Brake playing fields.

Please give OUFC the go-ahead for the fantastic opportunity which will be of benefit to the whole of Oxfordshire and beyond."/>
