<b>Comments</b>	<input type="text" value="I fully support this project as the opportunity to build a World class community facility comes along once in a generation. The football club from youth teams, the ladies teams and the men's first team is at the very centre of community in Oxfordshire. The club means so much to so many and requires a new home or it is very much at risk of disappearing. The plans to build a World class sustainable stadium are both bold and innovative and safeguard the future of the club as well as providing the community with a faculty that will be enjoyed by thousands every week. The jobs that will be created by the project both in the short and long term are also very important to the local community and that is why I urge you to support this marvellous development"/>
