Firstly the current home of Oxford United Kassam Stadium sees the lease expire in 2026 .
The stadium has never been finished .
The stadium facilities are inadequate with only cold water supply in the toilets
The car park cannot cope with the entrance exit being one and the same and the promise of a station in the nearby railway never materialised.The whole area of the current stadium cannot support a football club if they want to progress through the leagues.
The new stadium offers actual rail links along with a road system which connects to the M40.
A new stadium will enable the club to provide decent facilities ie hot and cold water in the toilets decent food and drink outlets fit for 2024 and beyond."/>
