<b>Comments</b>	<input type="text" value="I am a young supporter who believes that this is a massive opportunity for the community and surrounding areas. Oxford United needs to own its own stadium in order to forge a sustainable future for all to enjoy. The plans for this stadium are cutting edge design with consideration for the environment and sustainability, which will be a massive asset for the whole of Oxfordshire to be proud of. Local teams will be supported with the commitment of better maintenance of the current pitches by the club. As a supporter who cannot yet drive the position of the site close to Oxford Parkway Station and existing bus links will make the ground one of the most accessible in the country. Personally, it is hard to express how important the football club is with it being a meeting place for my cousins, grandparents and extended family. I have been attending games for over a decade and am still drawn back as a student living out of town."/>
