| Type | <input type="text" value="neighbour"/> |
| Comments | <input type="text" value="Good afternoon ,I am writing this to show my support for the application for Oxford United to move to a new stadium at the triangle,quite honestly from a selfish point of view the existing stadium is geographically closer for me but for several reasons the kassam stadium is just not fit for purpose and is quite an embarrassment to both the club and the city.the club has now reached a point where in order to survive, it must move away from the kassam to a new modern purpose built stadium or i think we will witness the death of oxfordshires only profesional football club,this would be very sad given the chance being presented to both the club and the county.oxford united plays a huge part in many people's lives not only locally but from all corners of the world,and i have so many memories from supporting the club from being taken to the manor ground as a child to going to games with school friends to the present day where i and several lifelong friends now take our own children to games ,and thus re kindling 40 year friendships ,the mental health benefits of this cannot be over stated.so i am going to end by urging the planning commitee to grant this application a once in a lifetime opportunity for everybody in the county, and as long as protection is put in place to ensure the club does not find itself once in again in its current predicament separated from its stadium ,the benefits are huge ,and the club has made lots of committments to enhance the site and to bring huge additional benefits to the local community. Please don't allow this wonderfull chance to slip by. Regards,Shawn Cox."/> |
