Comments	<input type="text" value="Dear Cherwell Council

As an ex-local (I moved from Abingdon in 1964) I have been a supporter of Oxford Utd for decades, and I view the proposed stadium plans as an exciting and essential move for both the club and the community. Though I can't get to many home games, my son travels down from Cheshire several times a year, and we both go to away games near to us up here in Cheshire. The thought that our club could cease to be is frightening. The city needs a top sporting club for people to follow, and the extra benefits for other local clubs is a great addition. The sustainable nature of the plans is enlightening, and could set the standard for future developments of this kind within the country, making Oxford a shining example of good practise, attracting positive media coverage for the area.
I strongly support this application, and trust that the local politicians see this as a 'once in a lifetime' opportunity for the community, and rubber stamp the proposals.

Regards
Mr Graham Tarry"/>
