Comments	<input type="text" value="Oxford United has been an important part of my life for nearly 40 years. This love for the team has carried over to my family but there enthusiasm for visiting the current stadium is not great due to the difficulties getting there and the facilities once you are there. Poor access, poor toilets makes taking younger children difficult. A new stadium with up to date facilities that is easy to get to would make introducing the next generation much easier. Being able to jump on a 10min train would mean not having to do a 45minute drive in bumper to bumper traffic on the A34.

Oxford United is so important and having a stadium the whole county can be proud of will ensure the club can thrive and be around for another 40 years. I fear for the future of the club if this does not get approved."/>
