<b>Comments</b>	<input type="text" value="I hope you can give your support to the Oxford United planning application by granting permission for a new Stadium at The Triangle. This is a once in a lifetime opportunity to give Oxford United a state of the art stadium with environmental and sustainability built into design. Which could be a showcase for the whole country. The club are at the mercy of the current landlord Firoz Kassam with lease running down and no chance of renewing it. If you were to grant planning permission for the Stadium I and fellow supporters realise there has to be a different mindset on travelling to and from the Stadium but it's location close to the railway station and the use of buses from Park and Ride sites around the city give us who live around the county options to get there and back. Finally this new Stadium could be something the whole county could be proud of."/>
