Comments	<input type="text" value="Oxford United is the heart and soul of the footballing community within Oxfordshire being the only professional football club in the football league that Oxfordshire provides. Proving longevity to the club with a world Class facility will benefit the community exponentially. Community benefit- This project is going to Provide jobs, engagement with a new era of fans. A facility for the community to benefit from built on land that is not used. From a personal prospective I'm a third generation Oxford fan having just started introducing the 4th generation (my son) attending games with my old man it's time spent with family enjoying football which is important to all of us. The existence of Oxford as a club hangs on this being granted. There should be no reason not to grant this planning permission."/>
