Name	<input type="text" value="JONATHAN RADBURN"/>
Address	<input type="text" value="38 Samor Way, Didcot, Oxfordshire, OX11 8RF"/>
Type of Comment	<input type="text" value="Support"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="The proposals represent a one in a lifetime opportunity to secure the future of Oxfordshire's only football club currently participating in the English football league. The club provide a focal point to a multitude of community based engagements as well as a focus for football fans from everyway possible demographic.
It is clear that the club and all those involved in the stadium design development have taken great care in order to create a sustainable stadium that is fit for the 21st Century. The site is ideally situated to provide eco friendly access via public transport (near several transport hubs). The intention to use only electricity to provide all power requirements is also unique for a development of this nature as it opens up the possibility of this being provided solely by renewable energy (wind. solar etc) in the very near future.

Cherwell District council now have a unique opportunity to secure the future of this Historic football club. I'm convinced in years to come that you will be applauded for having the foresight to grant approval for this Landmark development. I would urge you to not let this opportunity pass by."/>
