Comments	<input type="text" value="Dear Sirs,
I am writing to you in support of the planning application for the new stadium for Oxford United which I feel would benefit not only the football club and it's supporters but the local community and economy as well, bringing extra revenue into nearby Kidlington and North Oxford businesses while creating jobs plus benefitting the local sports clubs who use Stratfield Brake as well as providing activities, a community hub and a useable green space. The position of the new stadium is ideal for public transport with the adjacent train station and park & ride facilities, at present OUFC play in a stadium that is very much car dependant to get to, so traffic would be reduced considerably with the increased public transport links. I believe OUFC's application is fully consistent with government and local policy on sustainability which can only be good surely. I hope the planning committee will see favourably towards Oxford United's planning application and endorse this fantastic opportunity for Oxfordshire to have a first class footbal stadium to be proud of.

Yours Sincerely
Nigel Stinton"/>
