Type of Comment	<input type="text" value="Support"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="Being a life long Oxford United supporter and Also North Oxfordshire resident i support this application.

This is a great opportunity not just for Oxford United but for the whole of Oxforshire. These plans give the opportunity for some outstanding facilities which the whole county can benefit from and be truly proud of. These facilities will be here for the future generations to come.

It has been mentioned by people who are opposed to this development that traffic will be a major issue, i just don't see how that is going to be the case, There are good public transport in the area , The train station couldn't be any near and the 2 park and rides that are already located in the area would ease these traffic worries.

The football club already does lots of good work in the community and i can only see this increasing with the building of this stadium, which as i have already mentioned, will be something to benefit the whole county.

The development will bring economic benefits for Kidlington, and the wider communities . I urge you to support this application. Thank you."/>
