Comments	<input type="text" value="I now live in Warwickshire although originally from Oxford and along with my son and grandson are season ticket holders

Oxford United is a big part of our lives and it is clear the club desperately needs a new stadium. The new stadium looks fantastic and there is the added bonus that rather than driving we can get the train to the game.

The stadium plan seems to have done its very best to take into account all the environmental and social issues.

As I drive into Oxford I notice all the new housing being built which nobody seems to object to even though unlike the stadium they are in use 365 days a year as opposed to maximum two days a week for 8 months

The clubs survival depends on this stadium. I believe any objections are more about football than the stadium despite the fact that there is virtually no hooliganism any more.

I hope this application is successful"/>
