Comments	<input type="text" value="Oxford United is our club. The people of Oxfordshire should be proud of it and it's future should be protected. When people around the world talk about Oxford we don't just want it to be talk of a university, but of a great footballing city. This new stadium we help that to happen. It will also bring jobs to the area, allowing local people to live and work in their own town. It will bring money in to local businesses when fans visit. Lots of away fans are decent family people who will book hotels to stay after a game, and shop in the area. This football stadium will be state of the art and environmentally friendly. I hope you people who are making the decisions really do think about, how much good a top professional football club can bring to the area. Thank you."/>
