Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="I want to register my support for the planning application in respect of Oxford United and the Triangle.
We need to ensure that our football club remains at the heart of this city and to do that we need to build a new stadium with good travel links to accommodate fans from not just Oxfordshire.
Having it in Kidlington will meet this. There is a local train station a park and ride and easy access to the major roads
Will there be more congestion? Probably no more than there is already
Will it impact residents in Kidlington?
Yes of course but negatively it eill generate more footfal for local business, and they will have access to some amazing facilities.
Whether we get promotion this season or not that is our long term goal and we need a home. So please see the sense in this application and approve it"/>
